#### **SAFETY WARNING!**

Always use the correct tools, and wear safety goggles. We **STRONGLY** recommend installation by a licensed mechanic on a properly secured locking lift.

**Traxda LLC, 810 E 19th Street  
Tucson, Arizona 85719**

#### **TIRE FITMENT ADVICE**

The best way to ensure proper tire fitment is to install the kit before purchasing your wheels and tires. Always test fit tires and wheels before purchasing.

#### **VEHICLE RIDE WARNING!**

Trucks with lift or level kits installed have a higher center of gravity. Aggressive and sudden direction changes may cause a tip over.

#### **405090 Bracket Kit**

This kit contains:  
2- Shock Brackets  
Instruction  
Warranty card  
Stickers

#### **Installation Tips**

**Always use caution handling ABS or wheel sensor wiring. Avoid tension of any kind on wiring harness as this may cause damage or failure.**

1. Trucks are often not level side to side from the factory. Please measure before installation.
2. Re-torque all hardware to manufactures specifications
3. When aligning, to get the best tire wear use our supplied specifications. OEM specifications are for trucks with stock wheels and tires. Larger tires will wear differently.
4. All instructions are written with vehicle on a 2-post lift with tires removed.

## **Bracket Installation**

Remove lower shock mount bolt and remove OEM shock bracket from lower control arm.  
Install supplied shock mount bracket and reattach shock.
